DETAILED ACTION

This office action is in response to the paper filed on 10/16/2006.

Claims 2-10, 12-18, and 20 are pending. Claims 1, 11, 19, and 21 have been cancelled.

REJECTIONS AND OBJECTIONS WITHDRAWN

1. Examiner acknowledges the amendments that were filed on 10/16/2006 in regards to an Abstract, the update of the priority information and the figure legends. Therefore, the objections to the specifications are withdrawn.

2. The rejections of claims 6-9, 10-17, 19, and 20, under the 35 U.S.C. 112, second paragraph, are withdrawn in view of the amendments to the claims.

REJECTIONS MAINTAINED

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to

Art Unit: 1656

be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 2-10, 12-18, and 20 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 3-14 of copending Application No. 10/569,155. Although the conflicting claims are not identical, they are not patently distinct from each other because normal phase chromatography of the instant invention encompasses liquid phase chromatography of '155 and '155 uses "comprising" language which does not exclude the use of amino acid modifiers in the mobile phase.

This is a PROVISIONAL obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicants responded that the presently claimed methods, directed to the use of mobile phase modifiers, and methods claimed in '155 are differing in scope and not directed to the same inventive concept; where the claims 3-14 in '155, with regard to the liquid chromatography mobile phase do not recite the use of amino acid modifiers in the mobile phase.

Examiner acknowledges the Applicants' argument but maintains the rejection because although the conflicting claims are not identical, they are not patently distinct from each other because normal phase chromatography of the instant invention

Art Unit: 1656

encompasses liquid phase chromatography of '155. Therefore, the rejection is maintained.

Conclusion

No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
